DETAILED ACTION

Objection To Application

This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73^(b) is required in reply to this Office action.

Claim Rejections - 35 USC § 112

Claims 16 and 18 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claim 16 recites that the method is administered "to a human topically with a carrier...". However, the specification does not disclose any carrier other than a stent (column 3, lines 20-21). One skilled in the art would not know what other carriers other than a stent would be included in the recitation "with a carrier."

Objection To Claim

Claim 17 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
